## ELT is a web based app that helps you perform preventive maintenance and deal with equipment breakdown.

### WHY CHOOSE ELT

- › ELT will help you monitor your equipment's lifecycle in order to predict machine failures.
- › Learn how to deal with breakdowns and get advice on how to avoid them.

### KEEP TRACK OF TOOLS AND EQUIPMENT

#### INCREASE MACHINE EFFICIENCY

Forsee how much time your equipment can continue to operate before it has to be restored.

#### AVOID UNEXPECTED BREAKDOWNS

Be prepared for a machine breakdown and even expect it to avoid high repair costs.

#### STAY UP TO DATE WITH MAINTENANCE

Keep track of your equipment and train your team to detect malfunctions in advance.

### PERFORM PREVENTIVE MAINTENANCE

The screenshot shows the 'Configuración de Plataforma' section with a tree view of equipment. A configuration modal is open for 'Cuchilla Móvil'. Below, a table displays equipment status:

Equipo	Estado	Operación	Última Actualización	Último Evento	Acciones
Mespack 2 > Envasadora Mespack 2 > Dosificado Mespack 2	Dosificado	Online	924:46:17	13 d, 01:30:38	...
Mespack 2 > Envasadora Mespack 2 > Dosificado Mespack 2 > Pico 1	Fuelle	Online	924 46 17	13 d, 01:30:38	...
Mespack 2 > Envasadora Mespack 2 > Dosificado Mespack 2 > Pico 2	Fuelle	Online	16:58:37	12 d, 18:36:42	...

### ONLINE MONITORING

Monitor your equipment and tools to avoid unexpected breakdowns:

- 1 Connect your machines.
- 2 Name your equipment.
- 3 Receive maintenance and breakdown warnings.
