

## WHY CHOOSE SPC

**SPC is a web-based app that helps you monitor production quality through statistical data.**

- SPC allows you to remotely track your batches and production lines at any given moment.
- Learn how to detect and prevent incipient failures in your manufacturing process and how to find solutions to them.

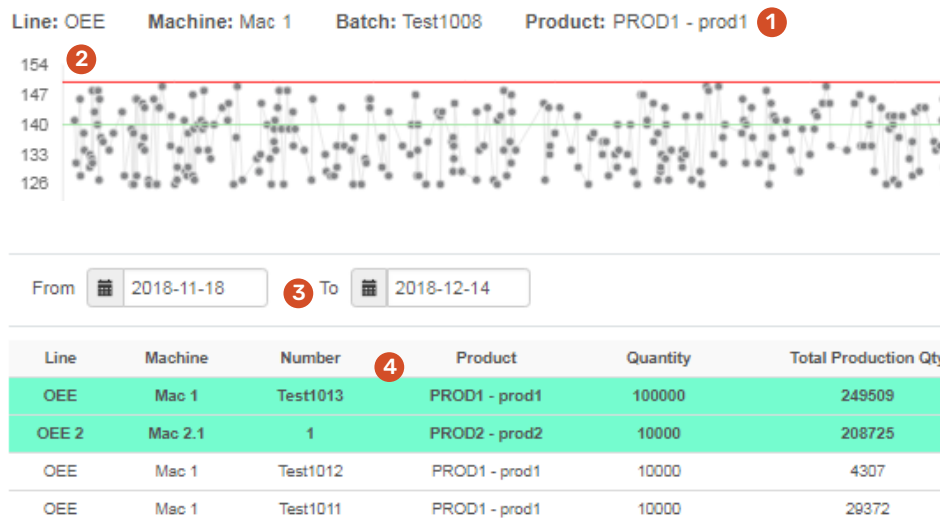

## HOW TO SET UP VARIABLES CONTROL CHARTS

**1 CHOOSE AND TRACK**  
 Choose which products, batches, and lines you would like to track.

**2 CUSTOMIZE VARIABLES**  
 Customize tracking parameters and quality standards for your manufacturing process.

**3 COLLECT DATA**  
 Connect your equipment to SPC and start collecting reports and company statistics in real time.

## TRACK YOUR MANUFACTURING PROCESS

### CONTROL CHARTS

Control charts will help you track and reduce manufacturing defects. They will also allow you to minutely analyze:

- 1** Customized machine monitoring.
- 2** Standard deviation graphs.
- 3** Customized timeframes.
- 4** Summary of the report.
